Theater of the Mind Denver

<https://theateroftheminddenver.com/>

This website was developed to showcase David Byrne's upcoming

collaborating with the Denver Center: The Theater of the Mind. My responsibilities included seeking out optimal Wordpress themes, creating reusable templates and modules, and styling the page itself.

Role: Lead Developer

Technologies Used: Wordpress, CSS, SVGs, Adobe XD

Camp Christmas

<https://drive.google.com/file/d/1go3tJnIjQtNlab4bMUhOzjyiu41GMfM6/view?usp=sharing>

This is an application built using React, Node, Express, Redis, and AudienceView's API. It is hosted on Google Cloud. The app is designed to help users narrow down the most ideal performance times for their schedule in an easy visual interface that allows them to quickly assess and filter by availability, date, and time of day.

Role: Lead Developer

Technologies Used: React, Node, Express, Redis, Google Cloud App Engine, AudienceView API
